

The Commission on Accreditation of Medical Transport Systems will conduct an accreditation site visit of PHI Air Medical (dba AirEvac Services) on the following dates:

May 21st and 22nd, 2012

The purpose of the site visit will be to evaluate the program's compliance with nationally established medical transport standards. The site visit results will be used to determine whether, and the conditions under which accreditation should be awarded to the program.

CAMTS accreditation standards deal with issues of patient care and safety of the transport environment. Anyone believing that he or she has pertinent or valid information about such matters may request a public information interview with the CAMTS site surveyors at the time of the site visit. Information presented at the interview will be carefully evaluated for the relevance to the accreditation process. Request for public information interview must be made in writing and sent to CAMTS no later than five (5) days before the site survey the interview. Such request should be addressed to the following:

Office of the Executive Director Commission
on Accreditation of Medical Transport Systems PO Box 130
Sandy Springs, SC 29677

The Commission will acknowledge such written requests in writing or by telephone and will inform the program of the request for an interview. The program will, in turn, notify the interviewee of the date, time, and place of the meeting.

This notice is posted in accordance with the CAMTS requirements and may not be removed until the site visit is completed.
